

# *“Hand in Hand” Patient Advocates Meeting*

## ***Do you run a patient support group, or are you keen to start one?***

This workshop aims to address gaps and drive positive change in the following ways:

- **Building Capacity:** Providing training and support for setting up and managing support groups.
- **Fostering Collaboration:** Creating a strong network of advocates to amplify our collective voice and influence change at local, national, and international levels.
- **Driving Awareness and Action:** Empowering participants with new skills and resources to raise awareness about musculoskeletal diseases, challenge misconceptions, and advocate for improved access to quality care.

**Please consider joining us for the day. The meeting is free of charge, and we are able to offer transport and accommodation to delegates from outside Cape Town**

**14 November 2024 08:30-16:30**

**Groote Schuur Hospital**

**For registration forms, please contact**

**Ms Amelia Lawrence (021) 404-2131**
